## ANDRE WINTERHALTER

### DIRECTOR, IT KANEKAS AMERICAS

“We selected the Unvired Mobile Platform over other competing platforms because it offered us the greatest value, ease of building custom applications and seamless integration with SAP. Kaneka Americas is live on the Unvired Mobile Rounds Manager, Warehouse Management and Work Orders mobile apps which have enhanced our Asset Maintenance and Shipping processes”

## ABOUT KANEKA

Kaneka Corporation was established in 1949 when its main products were caustic soda, soap, cosmetics, edible oils and electric wires.

Later, the company diversified into polymers, fermentation, biotechnology and electronics, and other fields.

Business activities now span a broad range of markets: synthetic resins, resin products, chemicals, foodstuffs, pharmaceuticals, medical devices, electrical raw materials and synthetic fibers.

## BUSINESS PROBLEM

- ✓ Finished Goods Warehouse operations were inefficient
- ✓ Maintenance Warehouse Operations needed to be streamlined

## SOLUTION

- ✓ Mobile apps for Inventory (Maintenance Warehouse) and Finished Goods management - access stock overview, execute goods movement (storage location movement, materials issues and returns, goods receipt), physical inventory counts, create purchase requisitions

## MOBILE DEVICES

- ✓ Category 1 Division 2 ruggedized iPads

## PROJECTED BENEFITS

- ✓ Enhanced Customer Satisfaction - due to more accurate/faster shipping
- ✓ Reduced Inventory Holding Costs
- ✓ Enhanced Maintenance due to better spare parts availability
- ✓ Increased Technician productivity
